bus fares which are a piece of cake

As well as standard single and return tickets purchased from the driver, this leaflet sets out our range of great value day, week and special tickets to get you around our network simply and efficiently. Download our app to get the best value tickets and live travel information.

Split into simple zones based on recognised county and borough boundaries our headline day, week and 28 day tickets provide unlimited travel on our buses in these areas with a Flexi 5 option for people studying, working part time or splitting home and office working.

If you're travelling over a shorter distance or only on one route then our range of local area tickets offer even better value, and we have evening ticket offers which are great for nights out or night shift workers.

If you're aged 5-25 then there's a special discounted ticket range for you too.

Finally, if you're travelling on more than one bus operator, and/or using the Tyne and Wear Metro or Shields Ferry, then we're part of the Network One multi operator ticketing scheme, letting you buy one ticket that can be used across all operators and modes.
