## summer saving fares

Following the success of the £1 evening fare offer, we have introduced a range of summer saving fares to help people's money go further and get more people back on board buses, in an effort to boost the region's local economy.

The ticket offers are designed to offer a range of very simple headline fares with easy-to-understand fare zones that match borough and county boundaries.

There will be a new County Durham zone, plus a new City of Sunderland zone, and the local zone in Gateshead will also be extended. There will be other discounts across the rest of the network too.

Single, return, day and weekly tickets in each zone have been simplified, with reduced prices elsewhere across the Go North East network, including an improved All Zones ticket offer.
